

NJ DEP PUBLIC COMPLEX STORMWATER REGULATIONS**POLICY**

The following ordinances are necessary for the College to comply with the NJ DEP's Municipal Stormwater Regulation Program. The regulations are part of a comprehensive plan to reduce the negative impact of pollutants entering our waters from storm drainage systems owned or operated by the College.

1. ILLICIT CONNECTIONS TO THE COLLEGE'S STORM SEWERS**PURPOSE:**

A regulation to prohibit illicit connections to the municipal separate storm sewer system(s) operated by Ocean County College, so as to protect public health, safety and welfare, and to prescribe penalties for the failure to comply. This regulation does not apply to any illicit connection which emanates from a location outside Ocean County College property.

Definitions:

For the purpose of this regulation, the following terms, phrases, words, and their derivations shall have the meanings stated herein unless their use in the text of this regulation clearly demonstrates a different meaning. When not inconsistent with the context, words used in the present tense include the future, words used in the plural number include the singular number, and words used in the singular number include the plural number. The word "shall" is always mandatory and not merely directory. Most of the definitions below are the same as or based on corresponding definitions in the New Jersey Pollutant Discharge Elimination System (NJPDES) rules at N.J.A.C. 7:14A-1.2.

- Domestic sewage - waste and wastewater from humans or household operations.
- Illicit connection – any physical or non-physical connection that discharges domestic sewage, non-contact cooling water, process wastewater, or other industrial waste (other than stormwater) to the municipal separate storm sewer system operated by Ocean County College, unless that discharge is authorized under a NJPDES permit other than the Public Complex Stormwater General Permit (NJPDES Permit Number NJ0141879). Non-physical connections may include, but are not limited to, leaks, flows, or overflows into the municipal separate storm sewer system.
- Industrial waste - non-domestic waste, including, but not limited to, those pollutants regulated under Section 307(a), (b), or (c) of the Federal Clean Water Act (33 U.S.C. §1317(a), (b), or (c)).

- NJPDES permit – a permit issued by the New Jersey Department of Environmental Protection to implement the New Jersey Pollutant Discharge Elimination System (NJPDES) rules at N.J.A.C. 7:14A
- Non-contact cooling water - water used to reduce temperature for the purpose of cooling. Such waters do not come into direct contact with any raw material, intermediate product (other than heat) or finished product. Non-contact cooling water may however contain algaecides, or biocides to control fouling of equipment such as heat exchangers, and/or corrosion inhibitors.
- Person – any individual (including but not limited to a College, agent, professional staff member, other employee, or student), corporation (including Ocean County College), company, partnership, firm, association, or political subdivision of this State, whose conduct on College is subject to regulation by the College.
