BOARD OF TRUSTEES

Bylaw, Policy, and Curriculum Committee Agenda Items

To: Board of Trustees
From: Office of the President
Date: July 18, 2024

The following Bylaw, Policy, and Curriculum Committee items are recommended to the Ocean County College Board of Trustees for approval at its meeting on **Thursday, July 25, 2024**:

1. Recommend approval of the following items as accepted by the College Senate at its meeting on July 18, 2024:
 - a. New Program Options
 - 1) Associate in Science Degree in Advanced and Continuous Studies – Option in Business – Accounting (**Exhibit B-1**)
 - 2) Associate in Science Degree in Advanced and Continuous Studies – Option in Business Administration (**Exhibit B-2**)
 - 3) Associate in Science Degree in Advanced and Continuous Studies – Option in Business Administration – Management (**Exhibit B-3**)
 - 4) Associate in Science Degree in Advanced and Continuous Studies – Option in Business Administration – Marketing (**Exhibit B-4**)
 - b. Revised Program
 - 1) Associate in Applied Science Degree in Computer Science/Informational Technology (**Exhibit B-5**)
 - c. Revised Program Option
 - 1) Associate in Applied Science Degree in Computer Science/Informational Technology – Option in Cybersecurity (**Exhibit B-6**)
 - d. Revised Certificate of Completion
 - 1) Certificate of Completion in Information Technology (**Exhibit B-7**)

e. New Courses

- 1) ACCT 340, Intermediate Accounting II: Computer Applications (**Exhibit B-8**)
- 2) ACCT 350, Cost Accounting with Computer Applications (**Exhibit B-9**)
- 3) BUSN 350, Introduction to Financial Management (**Exhibit B-10**)
- 4) BUSN 380, Advanced Operations Management (**Exhibit B-11**)
- 5) CSIT 212, Systems Analysis (**Exhibit B-12**)

Objectives

Program Description

Students in this Accounting option of the “3+1” program graduate with an associate degree from OCC in Business Administration - Option in Accounting (choosing designated courses) and then matriculate into the Advanced and Continuous Studies program - Business - Accounting Option (AS.ACS.SACT), allowing for financial aid to continue and for the full 90 credits to transfer to the aligned four-year university. The 300-level courses included in this option have been developed by OCC in conjunction with our four-year partner, Stockton University. Upon successful completion, no course shall be repeated.

Program Learning Outcomes

Students who successfully complete this program will be able to:	
PLO1	Apply written, oral, and visual communication skills and conventions of academic discourse to the challenges of a specific discipline.
PLO2	Interpret and employ a method of inquiry to draw conclusions based on variable evidence.
PLO3	Exhibit competency in the application of technology appropriate to the discipline and academic level.

The Associate ~~This career program prepares students for entry-level positions~~ in Applied Science (AAS) in Information Technology prepares students for entry-level positions in various ~~a multitude of~~ computer-related roles within the IT field. ~~jobs:~~ The program features a comprehensive curriculum that covers essential areas such as hardware, software, operating systems, information security, networking, computing fundamentals, and cloud computing. ~~Both computer scientists and information technologists need a balance of software and hardware applications with specific courses emphasizing effective problemsolving.~~The software development process; ~~(composing and coordinating component of a program)~~ requires that students construct algorithms for problem solving with appropriatedocumentation.~~It is also~~ This curriculum has been designed to equip students with prepare the skills needed for ~~student to meet~~ the ~~future needs of~~ integration, design, deployment, and management of computing ~~computing~~; resources and services. This program prepares students for industry-recognized certifications, enhancing their qualifications and career prospects.

~~A graduate of the program will have a firm understanding of modern programming practices and related skills in computer information technology.~~The department recommends the following minimal criteria for prospective students in the Computer Science/Information Technology program:

1. High school diploma or equivalent
2. Cumulative high school grade point average of C or above
3. Ranked in top half of high school graduating class
4. No developmental studies requirement

~~The AAS in Computer Science offers the following concentrations:~~Information Technology Cloud Computing Data Management Networking Programming

Program Learning

Outcomes

Students who successfully complete this program will be able to:	
PL01	Describe the main functions of an operating system:
PL02	Identify the basic concepts of the computer system and computer architecture:
PL03	Identify the major computer data, instruction and addressing formats:
PL04	Recognize the problems involved in program portability and be able to identify the solutions to these problems:

Students who successfully complete this program will be able to:	
PLO5	Describe the software lifecycle:
PLO6	Identify the requirements and rationale for allocating static, dynamic and virtual memory:
PLO7	Discuss the rationale and implement both member and friend examples of operator overloading:
PLO8	Explain the benefits of derived classes (including private, protected and public data members and methods) and implement examples of derived classes:
PLO9	Analyze (big O) sequential, binary and hashing algorithms:
PLO10	Analyze (big O) common selection, exchange and insertion sorting algorithms:
PLO11	Discuss the benefits, resource requirements and implementation of logical sorting algorithms:
PLO12	Explain the concepts, data structure and benefits involved in logically representing common data structures algorithms, such as ordered lists, stacks, queues and trees:
PLO13	Demonstrate independent thinker through mathematical, scientific and philosophical reasoning:
PLO14	Communicate effectively through reading, listening, speaking, and writing:
PLO15	Solve problems by collecting, organizing and evaluating information:
<u>PLO1</u>	<u>Identify the basic concepts of modern computer architecture including hardware, the main functions of an operating system and ancillary software and how the major computer data, instruction and addressing formats influence computer performance.</u>
<u>PLO2</u>	<u>Understand the fundamental techniques used in the development of software such as classes, objects, algorithms, data types, control structures, arrays, attributes, and methods and explain the software development life cycle (SDLC).</u>
<u>PLO3</u>	<u>Demonstrate foundational computer science and cybersecurity knowledge such as access control, security mechanism, cryptography, vulnerability, and risk management.</u>
<u>PLO4</u>	<u>PLO4: Describe fundamental networking concepts with emphasis on networking applications, data delivery and routing, network architecture, layering, and protocols</u>
<u>PLO5</u>	<u>Explain the principles of cloud computing including the topics of cloud infrastructures, virtualization, software defined networks and storage, cloud</u>

	Students who successfully complete this program will be able to:
	<u>storage, and programming models.</u>
<u>PLO6</u>	<u>Demonstrate knowledge and skills in the areas of Computer Science to solve technical and computational problems.</u>

The Cybersecurity option in the Computer Science/Informational Technology, Associate in Applied Science is designed to provide students the opportunity to apply their work experience to earning an associate degree in applied science. Students can earn credit for their work experience while they prepare for career advancement. Up to 17 credits may be awarded for work experience, including military experience, trade/proprietary school preparation, apprenticeship programs, certifications, and on-the-job-training.

Program Learning

Outcomes

	Students who successfully complete this program will be able to:
PLO1	Explain the current topics and techniques of cybersecurity.
PLO2	Apply the concepts, principles, and technologies of information security.
PLO3	Demonstrate foundational computer science and cybersecurity knowledge.
PLO4	Demonstrate an understanding of cryptography, authentication, and intrusion detection technologies.

The Certificate of Completion in Information Technology equips students with essential skills for a successful career in IT. The program offers a comprehensive curriculum, covering key areas such as hardware, software, operating systems, information security, networking (CCNA), computing fundamentals, and cloud computing. Students will gain a solid understanding of computing architecture, hardware components, operating system functions, networking principles, cybersecurity practices, and cloud infrastructures. Additionally, the certificate prepares students for industry-recognized certifications, enhancing their qualifications and career prospects.

~~This Computer Science/Information Technology certificate program provides a basic core of hardware and software courses with 6 additional CSIT electives to enable students with a specific retraining need to meet that goal within a limited timeperiod. A certificate will be awarded to students completing the courses with a cumulative average of 2.0 or higher.~~

Program Learning

Outcomes

Students who successfully complete this program will be able to:	
<u>PLO1</u>	<u>Identify the basic concepts of modern computer architecture including hardware, the main functions of an operating system and ancillary software and how the major computer data, instruction and addressing formats influence computer performance.</u>
<u>PLO2</u>	<u>Describe fundamental networking concepts with emphasis on networking applications, data delivery and routing, network architecture, layering, and protocols</u>
<u>PLO3</u>	<u>Demonstrate foundational computer science and cybersecurity knowledge such as access control, security mechanism, cryptography, vulnerability, and risk management</u>
<u>PLO4</u>	<u>Explain the principles of cloud computing, including the topics of cloud infrastructures, virtualization, software-defined networks and storage, cloud storage, and programming models.</u>
<u>PLO5</u>	<u>Demonstrate knowledge and skills in the areas of Computer Science to solve technical and computational problems.</u>

ACCT 261

Corequisites

5. Course Type

Course Type for vocational (approved for Perkins funding)
Perkins Reporting

6. Justification

Describe the need
for this course

This course is a third year business course for the 3+1 A.S. program in Advanced and Continuous Studies agreement with Stockton University.

Stockton University Justification:

This course focuses on Stockton University's Essential Learning Outcome - Critical Thinking and Accounting Program Learning Goal - Critical Thinking and Problem-Solving.

This course focuses on Stockton University's Essential Learning Outcome - Communication Skills.

This course focuses on Stockton University's Essential Learning Outcome and Accounting Learning Outcome - Ethical Reasoning.

This course emphasizes the Accounting Program Learning Goal – Technology Agility.

7. General Education

Will the college submit this course to the statewide General Education Coordinating Committee for approval as a course, which satisfies a general education requirement?

No

If the course does not satisfy a general education requirement, which of the following does it satisfy:

Program-specific requirement

8. Consistency with the Vision and Mission Statements, the Academic Master Plan, and the strategic initiatives of the College

Please describe how this course is consistent with Ocean County College's current Vision Statement, Mission Statement, Academic Master Plan, and the strategic initiatives of the College:

	Add item
1	This course is consistent with Ocean County College's (OCC) mission of "Ocean County College, an innovative academic leader, provides affordable, student-centered, high-quality educational experiences that empower diverse learners to succeed." This is achieved through OCC offering a 3+1 program that will provide a diverse group of students with an opportunity to receive a more affordable Bachelor's degree.
2	This course corresponds to the College's Strategic Goal 2: Optimize and expand enrollment of all learners. This is achieved through OCC adding an additional year of instruction and enrollment for any students that utilizes the 3+1 model.
3	This course corresponds to the College's Strategic Goal 4: Expand relationships with external stakeholders. This is achieved through the College's partnerships with four-year institutions to create new 3+1 programs and, in many cases, partnerships with industry for apprenticeships as they relate to the new 3+1 programs.

ACCT 3120 INTERMEDIATE ACCOUNTING II: COMPUTER APPLICATIONS 4 credit hours	Major requirement	

If not transferable
to any institution,
explain:

This course has been created to align directly with Stockton University's course "ACCT 3120: INTERMEDIATE ACCOUNTING II: COMPUTER APPLICATIONS." Students in this course would be

in a pipeline to transfer directly to Stockton upon completion at OCC.

10. Course Learning Outcomes

Learning Outcomes

	Students who successfully complete this course will be able to:
CLO1	Study the principles, concepts, and standards of accounting for economic resources, events, and transactions within an applicable accounting framework.
CLO2	Cover the business accounting cycle culminating in the preparation of financial statements.
CLO3	Integrate the use of computer applications, quantitative reasoning, and spreadsheet analysis.
CLO4	Logically interpret the financial information provided or gleaned and, using analytical skills, interpret and summarize the results in accordance with GAAP.
CLO5	Interpret, analyze, and summarize the results of information examined; apply appropriate analytic, problem-solving, and decision making skills in business situations.
CLO6	Analyze real-world business situations and make informed decisions by recognizing and defining a problem in a business setting.
CLO7	Research relevant data and challenge or agree with existing assumptions through rigorous examination of evidence in order to effectively develop, analyze and evaluate alternative solutions.
CLO8	Select and recommend a solution based on analysis of the known facts and conceptual understanding of relevant disciplines, assessing the performance outcomes of recommended solutions.
CLO9	Communicate effectively in a professional environment, demonstrate ethical reasoning when faced with moral dilemmas in business situations, and demonstrate the ability to navigate change and adapt to new technologies.

11. Topical Outline

(include as many themes/skills as needed)

	Major Themes/ Skills	Assignments (Recommended but not limited to)	Assessments (Recommended but not limited to)	Course Learning Outcome(s)
TO1	Current Liabilities	WileyPlus resources, textbook related homework assignments and problems, lecture, LMS materials	Exam One (WileyPlus), Quizzes, Pre-lecture Assignments, WileyPlus Homework, Task-Based Simulations , CPA Practice Questions	CLO1-CLO9
TO2	Long-Term Liabilities	WileyPlus resources, textbook related homework assignments and problems, lecture, LMS materials	Exam One (WileyPlus), Quizzes, Pre-lecture Assignments, WileyPlus Homework, Task-Based Simulations , CPA Practice Questions	CLO1-CLO9
TO3	Pension Plans	WileyPlus resources, textbook related homework assignments and problems, lecture, LMS materials	Exam One (WileyPlus), Quizzes, Pre-lecture Assignments, WileyPlus Homework, Task-Based Simulations , CPA Practice Questions	CLO1-CLO9
TO4	Leases	WileyPlus resources, textbook related homework assignments and problems, lecture, LMS materials	Exam Two (WileyPlus), Quizzes, Pre-lecture Assignments, WileyPlus Homework, Task-Based Simulations , CPA Practice Questions	CLO1-CLO9
TO5	Stockholders' Equity	WileyPlus resources, textbook related homework assignments and problems, lecture, LMS materials	Exam Two (WileyPlus), Quizzes, Pre-lecture Assignments, WileyPlus Homework, Task-Based Simulations , CPA Practice Questions	CLO1-CLO9
TO6	Dilutive Securities	WileyPlus resources, textbook related homework assignments and problems, lecture, LMS materials	Exam Two (WileyPlus), Quizzes, Pre-lecture Assignments, WileyPlus Homework, Task-Based	CLO1-CLO9

	Major Themes/ Skills	Assignments (Recommended but not limited to)	Assessments (Recommended but not limited to)	Course Learning Outcome(s)
			Simulations , CPA Practice Questions	
TO7	Investments	WileyPlus resources, textbook related homework assignments and problems, lecture, LMS materials	Exam Three (WileyPlus), Quizzes, Pre-lecture Assignments, WileyPlus Homework, Task-Based Simulations , CPA Practice Questions	CLO1-CLO9
TO8	Revenue Recognition	WileyPlus resources, textbook related homework assignments and problems, lecture, LMS materials	Exam Three (WileyPlus), Quizzes, Pre-lecture Assignments, WileyPlus Homework, Task-Based Simulations , CPA Practice Questions	CLO1-CLO9
TO9	Accounting for Income Tax	WileyPlus resources, textbook related homework assignments and problems, lecture, LMS materials	Exam Three (WileyPlus), Quizzes, Pre-lecture Assignments, WileyPlus Homework, Task-Based Simulations , CPA Practice Questions	CLO1-CLO9
TO10	Changes and Error Analysis	WileyPlus resources, textbook related homework assignments and problems, lecture, LMS materials	Exam Four (WileyPlus), Quizzes, Pre-lecture Assignments, WileyPlus Homework, Task-Based Simulations , CPA Practice Questions	CLO1-CLO9
TO11	Statement of Cash Flows	WileyPlus resources, textbook related homework assignments and problems, lecture, LMS materials	Exam Four (WileyPlus), Quizzes, Pre-lecture Assignments, WileyPlus Homework, Task-Based Simulations , CPA Practice Questions	CLO1-CLO9

12. Methods of Instruction

In the structuring of this course, what major methods of instruction will be utilized?

The structure of this course involves using a learning management system and WileyPlus homework management software, in conjunction with regular classes.

13. General Education Goals Addressed by this Course (this section is to fulfill state requirements)

Information

Communication-Written and Oral

Quantitative Knowledge and Skills

Scientific Knowledge and Reasoning

Technological Competency

Information Literacy

Society and Human Behavior

Humanistic Perspective

Historical Perspective

Global and Cultural Awareness

Ethical Reasoning and Action

Independent/Critical Thinking

14. Needs

Instructional
Materials (text
etc.):

Required Course Material

Intermediate Accounting, 18th Edition, with WileyPlus access code. Kieso, D. E., Weygandt J. J., & Warfield, T. D.

J. Wiley & Sons; (c) April 2022; Recommended: Loose-Leaf Version: ISBN: 978-1-119-79097-6

Technology Needs:

WileyPlus is required for the course. If not bundled with the textbook, it will be required to purchase WileyPlus instant access with only an online version of the book.

Technology is an essential delivery method of course instruction and part of our learning environment. The use of Office 365 including Excel is required and each student is strongly advised to troubleshoot their computer to make sure it's fully compatible with WileyPlus.

Human Resource
Needs (Presently
Employed vs. New
Faculty):

Faculty for this course must be approved to teach 300-level accounting courses.

Facility Needs:

Existing facilities will be utilized, including use of a computer lab

Library needs:

Stockton's Richard E. Bjork Library is important for student success in this course. In addition to books, reference materials, periodicals, newspapers, microfilms, media, computer software, archival materials, and government documents, the library provides a Learning Commons, group study spaces, computers, printers, scanners, and research support.

Access to many library resources is available at the library website.

<https://library.stockton.edu/welcome>

15. Grade Determinants

The final grade in the course will be the cumulative grade based on the following letter grades or their numerical equivalents for the course assignments and examinations

A: Excellent

7/17/24, 2:30 PM

Course Inventory Management

B+: Very Good

B: Good

C+: Above Average

C: Average

D: Below Average

F: Failure

I: Incomplete

R: Audit

For more detailed information on the Ocean County College grading system, please see Policy #5154.

3. Catalog Description

For display in the
online catalog

This course involves an intensive study of problems and procedures for establishing cost systems in a firm. It examines concepts of responsibility accounting, job and process costing, standard costing, budgeting, activity based costing, and cost prediction models. Problem solving techniques using Microsoft Excel and related systems are applied.

4. Requisites

Prerequisites

ACCT 263 and MATH 157

Corequisites

5. Course Type

Course Type for vocational (approved for Perkins funding)
Perkins Reporting

6. Justification

Describe the need
for this course

This course is a third year business course for the 3+1 A.S. program in Advanced and Continuous Studies agreement with Stockton University.

Stockton University Justification:

Cost Accounting focuses on Stockton University's Essential Learning Outcome - Critical Thinking and Business Program Learning Goal - Critical Thinking and Problem-Solving.

Students are often exposed to accounting and business dilemmas where complex techniques and regulations require multiple levels of solution skills.

The cost accountant is no longer a simple "number-cruncher", but an integral member of the business management team offering expertise and consulting to executive management.

Cost Accounting focuses on Stockton University's Essential Learning Outcome and Business Learning Outcome - Ethical Reasoning.

Cost Accounting emphasizes the Business Program Learning Goal – Technology Agility.

7. General Education

Will the college submit this course to the statewide General Education Coordinating Committee for approval as a course, which satisfies a general education requirement?

No

If the course does not satisfy a general education requirement, which of the following does it satisfy:

Program-specific requirement

8. Consistency with the Vision and Mission Statements, the Academic Master Plan, and the strategic initiatives of the College

Please describe how this course is consistent with Ocean County College's current Vision Statement, Mission Statement, Academic Master Plan, and the strategic initiatives of the College:

	Add item
1	This course is consistent with Ocean County College's (OCC) mission of "Ocean County College, an innovative academic leader, provides affordable, student-centered, high-quality educational experiences that empower diverse learners to succeed." This is achieved through OCC offering a 3+1 program that will provide a diverse group of students with an opportunity to receive a more affordable Bachelor's degree.
2	This course corresponds to the College's Strategic Goal 2: Optimize and expand enrollment of all learners. This is achieved through OCC adding an additional year of instruction and enrollment for any students that utilizes the 3+1 model.
3	This course corresponds to the College's Strategic Goal 4: Expand relationships with external stakeholders. This is achieved through the College's partnerships with four-year institutions to create new 3+1 programs and, in many cases, partnerships with industry for apprenticeships as they relate to the new 3+1 programs.

1. Course Information

Subject	BUSN - Business
School	Business and Social Sciences
Course Title	Advanced Operations Management

2. Hours

Semester Hours	4
Lecture	4
Lab	0
Practicum	0

3. Catalog Description

For display in the
online catalog

This course covers management issues associated with the process of making goods and services with analytical tools and emerging technology. Topics include product design, process selection, location, facility layout, job design, supply chain management, inventory control, resource planning and scheduling, quality management, and lean systems.

4. Requisites

Prerequisites

BUSN 271 and MATH 156 and MATH 157

Corequisites

5. Course Type

Course Type for vocational (approved for Perkins funding)
Perkins Reporting

6. Justification

Describe the need
for this course

This course is a third year business course for the 3+1 A.S. program in Advanced and Continuous Studies agreement with Stockton University.

Stockton University Justification:

This course will prepare students for understanding the operation of an organization so that they will be successful in understanding the needs of management in the workplace.

This course focuses on Stockton University's Essential Learning Outcome - Communication Skills and Stockton University's Essential Learning Outcome - Information Literacy and Research Skills.

This course focuses on Stockton University's Essential Learning Outcome and Business Analytics Learning Outcome - Ethical Reasoning.

This course focuses on Stockton University's Essential Learning Outcome - Critical Thinking and Business Analytics Program Learning Goal - Critical Thinking and Problem-Solving.

This course emphasizes the Business Analytics Program Learning Goal – Technology Agility.

7. General Education

Will the college submit this course to the statewide General Education Coordinating Committee for approval as a course, which satisfies a general education requirement?

No

If the course does not satisfy a general education requirement, which of the following does it satisfy:

Program-specific requirement

8. Consistency with the Vision and Mission Statements, the Academic Master Plan, and the strategic initiatives of the College

Please describe how this course is consistent with Ocean County College's current Vision Statement, Mission Statement, Academic Master Plan, and the strategic initiatives of the College:

	Add item
1	This course is consistent with Ocean County College's (OCC) mission of "Ocean County College, an innovative academic leader, provides affordable, student-centered, high-quality educational experiences that empower diverse learners to succeed." This is achieved through OCC offering a 3+1 program that will provide a diverse group of students with an opportunity to receive a more affordable Bachelor's degree.
2	This course corresponds to the College's Strategic Goal 2: Optimize and expand enrollment of all learners. This is achieved through OCC adding an additional year of instruction and enrollment for any students that utilizes the 3+1 model.
3	This course corresponds to the College's Strategic Goal 4: Expand relationships with external stakeholders. This is achieved through the College's partnerships with four-year institutions to create new 3+1 programs and, in many cases, partnerships with industry for apprenticeships as they relate to the new 3+1 programs.

BUSA 3120 Operations Management 4 credit hours	Major requirement	

If not transferable
to any institution,
explain:

This course has been created to align directly with Stockton University's course "BUSA 3120: Operations Management." Students in this course would be in a pipeline to transfer directly to Stockton upon completion at OCC.

10. Course Learning Outcomes

Learning Outcomes

Students who successfully complete this course will be able to:	
CLO1	Learn about the 10 major operations management decisions of <ul style="list-style-type: none"> o Design of goods and services o Managing quality o Process Strategy o Locations strategy o Layout strategy o Human resources o Supply chain management o Inventory management o Scheduling o Maintenance
CLO2	Become familiar with the techniques for designing, implementing, operating, controlling, and evaluating the ten major operations management decisions.
CLO3	Cover major issues associated with operations strategies for competitive advantage and emerging technology, and with the conversion of resources into goods and services within the framework of the management processes such as planning, organizing, staffing, and controlling.
CLO4	Emphasize the decision-making processes and value creation in strategic and tactical activities relevant to forecasting, capacity, facility, human resource management, business processes reengineering, supply chain management, enterprise resource management, inventory control, and total quality management.
CLO5	Determine the reliability, nature, quality, extent, and appropriateness of various sources such as websites of information about operations management issues.
CLO6	Understand the ethical implications that can occur during the process of defining problems, developing alternatives, and value trade-offs when making decisions as an operations manager.
CLO7	Be aware of potential situations can that can create ethical dilemmas for the operations manager and be able to maximize integrity when making decisions as operations managers

Students who successfully complete this course will be able to:

CLO8	Apply the process of stating the problem, describing the approach to take in solving it, developing the complete and detailed solution, and providing insight to why this solution has relevance to solving operations management problems and making decisions.
CLO9	Apply theories and skills of statistical data analysis and management science to support decision-making processes throughout an organization; understand the concepts and applications of operations management in a dynamic global business environment.

11. Topical Outline

(include as many themes/skills as needed)

	Major Themes/ Skills	Assignments (Recommended but not limited to)	Assessments (Recommended but not limited to)	Course Learning Outcome(s)
TO1	Operations and Productivity	Lecture, readings, in-class problems and Excel exercises, Kahoot quizzes and feedback in class, extra credit project that involves learning about generative AI, practice tests, groupwork, My OM Lab video case study videos	Test 1, Aldi and Shop Rite case study, Homework and In class Exercises, My OM Lab Assignments and Simulations	CLO1-CLO9
TO2	Global View of Operations	Lecture, readings, in-class problems and Excel exercises, Kahoot quizzes and feedback in class, extra credit project that involves learning about generative AI, practice tests, groupwork, My OM Lab video case study videos	Test 1, Aldi and Shop Rite case study, Homework and In class Exercises, My OM Lab Assignments and Simulations	CLO1-CLO9
TO3	Supply Chain Management	Lecture, readings, in-class problems and Excel exercises, Kahoot quizzes	Test 1, Aldi and Shop Rite case study, Homework and In class Exercises, My OM	CLO1-CLO9

	Major Themes/ Skills	Assignments (Recommended but not limited to)	Assessments (Recommended but not limited to)	Course Learning Outcome(s)
		and feedback in class, extra credit project that involves learning about generative AI, practice tests, groupwork, My OM Lab video case study videos	Lab Assignments and Simulations	
TO4	Design of Goods and Services	Lecture, readings, in-class problems and Excel exercises, Kahoot quizzes and feedback in class, extra credit project that involves learning about generative AI, practice tests, groupwork, My OM Lab video case study videos	Test 2, Aldi and Shop Rite case study, Homework and In class Exercises, My OM Lab Assignments and Simulations	CLO1-CLO9
TO5	Project Management	Lecture, readings, in-class problems and Excel exercises, Kahoot quizzes and feedback in class, extra credit project that involves learning about generative AI, practice tests, groupwork, My OM Lab video case study videos	Test 2, Aldi and Shop Rite case study, Homework and In class Exercises, My OM Lab Assignments and Simulations	CLO1-CLO9
TO6	Process Strategy	Lecture, readings, in-class problems and Excel exercises, Kahoot quizzes and feedback in class, extra credit project that involves learning about generative AI, practice tests, groupwork, My OM	Test 2, Aldi and Shop Rite case study, Homework and In class Exercises, My OM Lab Assignments and Simulations	CLO1-CLO9

	Major Themes/ Skills	Assignments (Recommended but not limited to)	Assessments (Recommended but not limited to)	Course Learning Outcome(s)
		Lab video case study videos		
TO7	Quality Management	Lecture, readings, in-class problems and Excel exercises, Kahoot quizzes and feedback in class, extra credit project that involves learning about generative AI, practice tests, groupwork, My OM Lab video case study videos	Test 2, Aldi and Shop Rite case study, Homework and In class Exercises, My OM Lab Assignments and Simulations	CLO1-CLO9
TO8	Location Strategies	Lecture, readings, in-class problems and Excel exercises, Kahoot quizzes and feedback in class, extra credit project that involves learning about generative AI, practice tests, groupwork, My OM Lab video case study videos	Test 3, Aldi and Shop Rite case study, Homework and In class Exercises, My OM Lab Assignments and Simulations	CLO1-CLO9
TO9	Inventory	Lecture, readings, in-class problems and Excel exercises, Kahoot quizzes and feedback in class, extra credit project that involves learning about generative AI, practice tests, groupwork, My OM Lab video case study videos	Test 3, Aldi and Shop Rite case study, Homework and In class Exercises, My OM Lab Assignments and Simulations	CLO1-CLO9
TO10	Layout Strategies	Lecture, readings, in-class problems and Excel exercises, Kahoot quizzes and feedback in class,	Test 3, Aldi and Shop Rite case study, Homework and In class Exercises, My OM	CLO1-CLO9

	Major Themes/ Skills	Assignments (Recommended but not limited to)	Assessments (Recommended but not limited to)	Course Learning Outcome(s)
		extra credit project that involves learning about generative AI, practice tests, groupwork, My OM Lab video case study videos	Lab Assignments and Simulations

12. Methods of Instruction

In the structuring of this course, what major methods of instruction will be utilized?

Students will learn about operations management through lectures, problem-solving, in class discussions, case studies, and simulations. Students will use Excel to solve problems with data and quantitative analysis. Case studies and simulations will be assigned to show practical application of the material. An LMS and MYOMLAB are used in this course

13. General Education Goals Addressed by this Course (this section is to fulfill state requirements)

Information

Communication-Written and Oral

Quantitative Knowledge and Skills

Scientific Knowledge and Reasoning

Technological Competency

Information Literacy

Society and Human Behavior

Humanistic Perspective

Historical Perspective

Global and Cultural Awareness

Ethical Reasoning and Action

Independent/Critical Thinking

14. Needs

Students will need to purchase an access code for MyOMLab at
<https://www.pearson.com/mylab>

Technology Needs:

It is required to get enrolled in the MyOMLab course.

7/17/24, 2:31 PM

Course Inventory Management

Human Resource
Needs (Presently
Employed vs. New
Faculty):

Faculty for this course must be approved to teach 300-level business courses.

Facility Needs:

Existing facilities will be utilized including computer lab

Library needs:

Stockton's Richard E. Bjork Library is important for student success in this course. In addition to books, reference materials, periodicals, newspapers, microfilms, media, computer software, archival materials, and government documents, the library provides a Learning Commons, group study spaces, computers, printers, and scanners, and research support.

Access to many library resources is available at the library website.

15. Grade Determinants

The final grade in the course will be the cumulative grade based on the following letter grades or their numerical equivalents for the course assignments and examinations

A: Excellent

B+: Very Good

B: Good

C+: Above Average

C: Average

D: Below Average

F: Failure

I: Incomplete

R: Audit

For more detailed information on the Ocean County College grading system, please see Policy #5154.

Practicum	

3. Catalog Description

For display in the
online catalog

The focus of this course is the problem solving, communication and design skills utilized in systems analysis. Case studies are used to illustrate the system analysis, design and development activities used in the initial automation and revision of computerized applications. File and database structures are discussed and applied. In addition, documentation techniques are discussed and illustrated. The student will complete a system analysis project.
